

Garbology

A Thematic Unit about Trash

By Nancy L. Wilkinson

**Garbology
Culminating Activity
Lesson 26
An Evening of Trash**

Objective:

Hold an "Evening of Trash"

Materials:

Projects from all curriculums

Opener:

You have been working very hard on this trash project. Now is the time to invite your parents and community members to an "Evening of Trash."

Activity:

At this activity, you will want to display all of the things that you have done with this Garbology unit. This includes the statistics gathered, the art and science projects, the songs from music class, the stories and poems from the language arts class and the discussion results from the social studies class.

This also might be a good time to ask your parents to bring their recyclable items to the school. The teacher can arrange for someone to pick them up and take them to a recycling center.
